## **WHAT IS BILDITS ?**

Bildits is an award-winning STEM construction workshop that allows students to design and build miniature houses by following actual engineering practices.

Students will work with Bildits' proprietary small-scale building components and specially modified tools, which have been reimagined to ensure children's safety and ease of use.

## OUR AWARDS

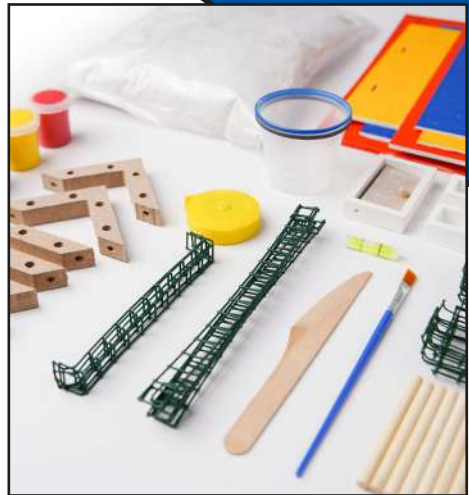

HARVARD ARAB ALUMNI

## BILDITS CURRICULUM

Our program was built in coordination with UNICEF and aims to empower children with practical knowledge and skills, learned through construction and engineering processes

Our curriculum aligns with most international science and innovation education standards, including the US Next Generation Science Standards (NGSS), and Common Core State Standards
